place order Search products companies Advanced Searching

1. Place the order through Buylink.
2. Cash the rebate check.

**Cash back with every purchase order.**  
We think it's about time the buyer got the commission. So we're giving you a cut of the price the vendor lists. The Buylink rebate increases as you purchase - across thousands of listed vendors.

**It's on top of your existing vendor discounts.**  
If you don't have an existing deal from a vendor, you do now - across thousands of lines on Buylink. If you already do, add it to your Buylink purchase order for a 3-7 percent rebate on top of it.

**The more you order, the more you get back.**  
Rebates range from 3-7% based on the volume you've purchased in the last 60 days. Each online purchase order counts towards your Buylink rebate balance. You'll find your current rebate status in the upper left corner of your retail homepage.

**Prices are catalog list.**  
All prices are the vendor's catalog list. We're just sending you back part of the commission.

**Direct to vendor deals included.**  
Worked out something special with a vendor? Just enter in the vendor's discount amount on the order. You'll get both if you place the order here.

**When do I get my commission?**  
We'll send you a check for your qualified rebate amount once a month. As soon as we receive the vendor fee for your order, your rebate will be approved and we'll add the approved amount to your monthly rebate check.

**How about my current suppliers?**  
Invite your existing suppliers to list their products on Buylink for FREE. When you place online purchase orders with the vendors, you'll get the Buylink rebate - plus any existing discounts you might already have.

Cool! Go back to where I was before
